ADDING VALUABLE INFORMATION TO YOUR PRODUCTS

In today's fast moving society, information is a fast moving asset. Applying information directly to products makes them more attractive to the consumer. Meto has a tradition of innovation and flexibility, developing just the right label for your business.

JUST THE RIGHT LABEL FOR YOUR BUSINESS

- Any shape, size and colour
- Add your logo, text or pictogram
- Adhesive developed for your special application: from standard, removable or extra strong to deep-freeze, delicate textile, outdoor use adhesive and application on greasy or irregular surfaces
- Add security cuts in any shape to prevent fraud
- Any label material, from paper to plastic

Please note, the prices on the labels indicate the print layout of the relevant Handlabeller and not the product price.
